

# KANNAN B

Data scientist

DataAnalyst

## My Contact

✉ vanukannan4@gmail.com

☎ 7603963919

📍 Chennai

## Hard Skill

- Python for Data science
- Data visualization data cleaning data analysis
- power BI
- SQL
- Machine learning

## Soft Skill

- Observation
- Decision making
- Communication
- Multi-tasking

## Education Background

- Adhiyaman Matric Hr.sec.school  
Graduated with high percentage of 92%  
Completed in 2017
- Ideal Hr.Sec.School  
Graduated with high percentage of 73%  
  
Completed in 2019
- Thangavelu Engineering College  
Bachelors of Information Technology  
  
Completed in 2023

## About Me

Enthusiastic and detail-oriented Data Analyst and Data Scientist with a strong foundation in data analysis, statistical methods, and data visualization. Recent graduate with a B.Tech. in IT equipped with hands-on experience in analyzing and interpreting complex data sets through coursework and academic projects. Proficient in SQL, Python and Excel, with a keen interest in leveraging data to drive business insights and decisions. Adept at using data visualization tools like Tableau and Power BI to communicate findings effectively. Eager to contribute to data driven projects

## Professional Experience

### Data Scientist Internship

2024 - Present

Developed a data ingestion process to automate the transfer of data from multiple sources into a single dataframe resulting in a X% reduction data entry

Created data models and documents data flows to improve system architecture and data quality

Utilized Data visualization tools to create interactive graphical representations of financial data

### Project -1

#### Brain -Stroke Prediction Using Machine Learning

we use machine learning algorithms to predict the brain stroke is occurred or not we use the supervised algorithms for the prediction of correct data insights and we use necessary details like bmi age for the prediction

### Project -2

#### Email spam detection

we use machine learning algorithms to predict the email is spam or not and we use the naive bayes classifier for the email spam detection and it is currently in implement in the email app

## Hobbies

Listening songs

Watching Anime

Reading Books
